pythonProject8 > test_parse.py

Project

- pythonProject8 ~/PycharmProjects/pythonProject8
 - venv
 - .coverage
 - parse.py
 - test_parse.py
 - trial.py
- External Libraries
- Scratches and Consoles

Structure

- parse.py
- test_parse.py

Code

```
1 from unittest.mock import patch
2 import unittest
3 import parse
4
5
6 class TestParse(unittest.TestCase):
7     def setUp(self) -> None:
8         self.data = """{ "pets": "dog dog dog cat",
9                           "owner": "mother father brother sister cat ",
10                          "name": "John John Alisa Alisa",
11                          "age": "50 50 20 20"}"""
12
13     def test_parse_1(self):
14         with patch("parse.handler") as mk_var:
15             parse.parse_json(self.data, mk_var, ["pets"], ["dog", "cat"])
16             self.assertEqual(mk_var.call_count, 2)
```

Terminal: Local x + v
